FLOATING DOCK FOR VANCOUVER

**LONDON TO FINANCE
BIG ENTERPRISE**
Subsidy From Dominion Government is Available—City Must Help.

(Special to the Times.)
Montreal, July 2.—N. Thompson, an engineer of Vancouver, has just arrived from London where he promoted a floating dock for Vancouver, and in this manner the Dominion subsidy will be forthcoming. Mr. Thompson states arrangements will be made in London to finance the enterprise on condition that the city of Vancouver likewise gives a helping hand. He also formed a company to mine magnesia deposits at Atlin, where there are already in the neighborhood of 1,000,000 tons in sight, and which, being put to a severe test, has been proved to possess eleven times greater strength than Portland cement.

CANOEING TRAGEDY.
London, Ont., July 2.—Elen, 17, an employee of the McMillan Publishing Co. of Toronto, was drowned in the Thames river last night. The upsetting of a canoe in which she was sailing with Miss Faring, a school teacher, living in South London. The latter was saved by climbing to a tree. Elen's body has not yet been recovered.

**REACH COMPROMISE
ON ELECTION BILL**
Solution of Much Debated Measure Satisfactory to Both Parties.

(Special to the Times.)
Ottawa, July 2.—Hon. A. B. Aylesworth proposed an amendment to the election bill in the Commons today. The bill is a compromise satisfactory to both sides. In the unorganized districts of Ontario the amendment provides for the re-creation and revision of the bill for the federal election by local judges. In Manitoba the allocation of provincial lists to federal constituencies is entrusted to judges while the second revision of provincial lists before the federal election is originally proposed is dropped from the bill. The unorganized districts of British Columbia and Quebec are dropped from the bill.

TROUT FOR LAKE CHAMPLAIN.
Canadian Arrested for Poaching in American Waters of Niagara.

Albany, N. Y., July 2.—Lake Champlain is stocked with lake trout by the state forest, fish and game commission, according to a statement made yesterday. Beginning next week 20,000 fry and fingerlings from the Saratoga hatcheries of the state will be deposited in the lake from Vermont to Plattsburgh. The commission was notified yesterday that two residents of Canada were arrested recently on charges of poaching in the waters of the Niagara river without having secured a license from the state. They were fined \$15 each. These arrests were the first since the department announced that residents of Canada fishing in American waters would be compelled to pay a fee of \$5. This action was taken after a similar order had been put into effect by the Canadian government.

KANSAS MAN ROBBERY.
Stearns Arrested at Monroe Not Connected With Crime.

Monroe, Mich., July 2.—Post Office Inspector Stuart, of Chicago, arrived here today and after inspecting the negro taken into custody here on Tuesday on suspicion of being Chas. Savage alias Stevenson, wanted for connection with the \$50,000 mail robbery at Kansas, advised that he is not Savage. There is a resemblance, but Davis who once arrested Savage, declares unmistakably that he is the much wanted mail robber. The negro says his name is E. W. Thomas, and that he is a solicitor for funds for a negro home at Mason, Ga.

GANS-NELSON MATCH.
Famous Lightweight in Training for Match on Saturday.

San Francisco, July 2.—Joseph Gans and Rustling Nelson, who will meet on the afternoon of July 4th in a 6-round boxing contest for the lightweight championship, have precisely finished their training work. The weight agreement calls for 135 pounds at the ring side stripped. Gans has confined himself almost entirely to road and gymnasium work of the simplest nature, entirely eliminating boxing. Nelson, on the other hand, has paid particular attention to boxing in his training, and seems to be in as good condition as when he last met the champion at Oakland.

BLACK HAND OUTRAGE.
Dynamite Seriously Injures Four People and Partially Wrecks Dwelling House.

Pittsburg, Pa., July 2.—Four persons were seriously injured and two dwelling houses partially wrecked yesterday when a charge of dynamite was exploded at the home of George Deavolara, a wealthy Italian living at Spokesport, adjoining the city of Pittsburg. Several threatening letters signed by an alleged black hand organization have been received by Deavolara recently. The authorities are endeavoring to trace the authors of the letters.

TO IMPROVE SIOUX HARBOR

Dominion Government Engineer to Visit Island and Report.
(Special to the Times.)
Ottawa, July 2.—Louis Costa, engineer of the department of public works, is commissioned by the government, at the request of Ralph Smith, to go to Sioux harbor, Vancouver Island, and report on a plan for the improvement of the harbor and the navigation aids required.

DESTRUCTIVE KILLARNEY FIRE.
(Special to the Times.)
Winnipeg, July 2.—Fire at Killarney, Man., this morning destroyed Lawrence & Sons hardware store, Challen's restaurant and the offices of Barrister Ray and Douglas Trowell. The total loss is twenty-five thousand dollars.

ETON IN FINAL OF GRAND CHALLENGE CUP

English Style of Rowing to the Fore at Henley Regatta.

Henley, July 2.—Eton, which this year for the first time entered a crew for the grand challenge cup, qualified for the final heat of the race this morning by beating the crew of the Thames rowing club in a very close race, finishing only three-quarters of a length ahead. Eton's success in this race is considered as a triumph for the English style of rowing as the Thames club has partially adopted the style of the Belgian crew which won the cup in 1907.

The final for the cup will be rowed tomorrow when Eton will meet Christ Church College, Oxford, who this morning beat New College by six lengths, covering the course in 7 minutes 1 second, compared to Eton's time of 7 minutes 6 seconds.

DROWNS AT SIWASH ROCK.
Vancouver, July 2.—Geo. B. Thompson, aged 30, fell off a gasoline launch at Siwash rock and was drowned.

DEATH BY DROWNING.
(Special to the Times.)
Vancouver, July 2.—C. W. B. Daniels, aged 30, whose relatives live at Victoria, has been drowned at Barnet.

**STRUCK DOWN BY
SENTENCE OF DEATH**

William Paul Found Guilty of Horribly Cold Blooded Murder.

Kenora, Ont., July 2.—William Paul was found guilty before Justice Anglin at the assizes yesterday of the murder of Henry Schilling near Pine Wood, on the Rainy river, and was sentenced to be hanged on September 18th. When asked if he had anything to say, the prisoner tried to speak, but was unable to utter a sound.

The murder for which Paul was found guilty was one of the most cold blooded in the history of this part of Ontario. Paul and Schilling, both young men and apparently bosom friends, left Rainy river on November 28th, 1907, to cut timber in the woods. They skated up the river, and that was the last seen of Schilling till his body was found four days afterwards and Paul's blood stained skates nearby. It came out in the evidence that Schilling had been killed in a horrible manner by Paul.

Paul was tried and found guilty at the assizes last November, but through an error in the judge's charge he was granted a new trial, with the same result.

**HONORING MEMORY
OF MRS. CRAIGIE**

Lord Curzon Unveils Medallion of Gifted Authoress in London.

London, July 2.—Lord Curzon, of Kedleston yesterday unveiled the medallion of "John Oliver Hobbes" (Mrs. Craigie), which has been placed in the general library of the university college, London, of which the late Mrs. Craigie was a student. After Lord Curzon had spoken, one of the trustees of the John Oliver Hobbes memorial fund, handed to the treasurer of the college a sum of money for the foundation of the John Oliver Hobbes scholarship in modern English literature.

The medallion, which was executed by Alfred Drury, A. R. A., is of bronze, framed in dark wood. On the left corner Mrs. Craigie's figure representing literature and comedy. A replica of the medallion is to be sent to America. Mrs. Craigie's birthplace.

ILLNESS OF QUEEN AMELIE.
Lisbon, July 2.—Queen Amelie of Portugal, who has been suffering from a mild attack of influenza, is steadily improving, and all danger is over.

SHAH WRITES TO KING EDWARD

**MORE BLOODSHED IS
EXPECTED IN TABRIZ**
Rachin Khan Horseman Are Joined by Mob in Atrocities.

London, July 2.—The fact that the Shah has been in direct correspondence with King Edward, probably protesting against the shattering of refugees, the British legation at Teheran, is confirmed. It is believed that the King in reply, referred the Shah to the foreign office as the usual channel for such communications.

The situation at Tabriz continues to be serious. Private dispatches received here say that the people have expected bloodshed in the streets, and the fighting is going on night and day. Tabriz and the entire province of Azerbaijan are strongholds of the revolutionists, and the arrival there of troops to strengthen the forces of the Shah has increased the danger of the situation.

The safety of the troops to the city is opposed by the revolutionary forces. All the bazars are being closed, and there has been some looting of residences of delegates to the assembly and business houses.

Increasing cause for alarm is found in the fact that Tabriz is surrounded by Rachin Khan and his horsemen. They are supporters of the Shah. Should these riders be turned loose on the city the lives of even the foreigners there would be endangered.

No details are given of the recent fighting, but one of the dispatches conveyed these words: "A good deal more bloodshed is expected before the trouble is settled."

The foreign community resident at Tabriz is small, and is composed mostly of Russians. There are a British consul general, A. C. Kratichew, and a Russian consul general, M. Pohlmann, and the staffs of the Imperial Bank and the telegraph company and a few Europeans engaged in the carpet trade.

The British and Russian consulates are guarded by Cossacks.

**KING KIND, BUT
COURT IS PITILESS**

St. Petersburg, July 2.—News was received here yesterday showing that the Russian court is pitiless. Mounted followers of the Rachin Khan have been arriving before the city. They met with resistance. This aggravated them, when they at once began committing atrocities, in which the mob joined. The government described as intense. The anti-revolutionists, feeling themselves on firm ground, have declined the proposal of an armistice made by the Russian consul general.

Son of Actress Cannot Establish Claim Against Estate of Alfonso.

Madrid, July 2.—The Supreme court yesterday gave judgment against the son of Elena Sanza, a Bohemian opera singer, in a suit brought to recover a share of the estate of King Alfonso XII, from the Dowager Queen and other legatees, which he claimed as the natural son of the King. King Alfonso XII was enamored of Elena Sanza, who bore him two sons. The singer was banished from Spain after the death of the King, and died homeless and friendless in Paris in 1899. The provisions of the King's will, by which he provided an ample annuity for her, appear not to have been carried out, but through an error in the judge's charge he was granted a new trial, with the same result.

YOUTHFUL COUPLE DROWN.

Burlington, Vt., July 2.—While Henry D. Hays was assisting Solly Breen, aged nineteen years, into his rowing boat on the Champlain Transportation Company's wharf here, the boat was upset and the girl and young man were drowned. Miss Anna Moulton, aged sixteen years, who was in the boat, was rescued.

**AMERICAN CITIZEN
SAID TO BE SPY**

Papers in His Possession Show Conspiracy Against President Cabrera.

San Francisco, July 2.—Passengers who arrived from southern ports yesterday told of the arrest by officials of the Guatemalan government of H. Barrington, said to be an American citizen, as a spy. Barrington is said to have gone to Central America from New York some weeks ago.

The passengers who tell of the arrest say that they expect to hear that he has been put to death, as he had papers in his possession which proved beyond doubt that he was a spy from Salvador and that he was in a conspiracy against President Cabrera.

BANK OF ENGLAND

Large Increase in Deposits During Past Week.
London, July 2.—The rate of discount of the Bank of England remained unchanged at 2½ per cent. The weekly statement of the Bank of England shows the following changes: Total reserve, decreased, £1,700,000; circulation, increased, £1,000,000; bullion, decreased, £707,250; other securities, increased, £235,000; public deposits, decreased, £252,000; notes, reserves, decreased, £1,861,000; government securities, decreased, £8,000.

GERMAN REMAINS IN AIR FOR TWELVE HOURS

Zeppelin Balloon Attains Speed of 34 Miles—Splendid Qualities.

Friedrichshafen, July 2.—A telephonic message just received from Zeppelin, Switzerland, says Count von Zeppelin is manoeuvring around that city and the lake of Lucerne in his steerable balloon. Large crowds, composed of summer tourists and the local population, have gathered on the lake front and are cheering the enormous craft as it circles over the lake, apparently under the absolute control of the pilot.

Lucerne is about sixty-five miles from the town of Friedrichshafen, where the ascent was made this forenoon. The Zeppelin alighted reached base at half past ten and Lucerne at a quarter past 10 o'clock.

Count Zeppelin maintained all world's records for steerable balloons. He remained in the air for twelve hours, traversed the greater part of Northern Switzerland and visited Zurich and Lucerne, attaining an average speed of 34 miles an hour. His alighting displayed splendid qualities of dirigibility and answered the slightest movement of the helm, while its stability was quite up to the greatest expectations.

DROWNS WHILE YACHTING.
(Special to the Times.)
Ottawa, July 2.—William M. Greepe, a teller of the Union Bank here, was drowned in Lake Deschene. He was yachting and was knocked overboard by the main boom. Deceased was 22 years of age and came from Halifax.

FOUND DEAD IN BATHROOM.
London, July 2.—Wm. T. Gilbert, of 20 West Fifty-seventh street, New York, was found dead in a bathroom of the Bayview hotel this morning, where he had gone to take a bath, and while there was seized with a stroke of apoplexy from which he expired. Mr. Gilbert was a well-known actor, having suffered one year ago. Mr. Gilbert was travelling with his sister.

**"POACHER" SEIZES
CHANCE TO ESCAPE**

Decamps to American Waters While Canadians Go for Assistance.

Alpena, Mich., July 2.—The fishing tug R. T. Roy, of this city, which was seized last Thursday, by Canadian Fisheries Officer E. S. Duncan, of Pictou, Ont., while alleged to be fishing in Canadian waters, arrived here yesterday after a remarkable escape from the Canadian officials.

The tug after the seizure was first taken to South Bay, Manitoulin Island, and the crew then escaped under escort. On Monday Officer Duncan started for Sault Ste. Marie, Ont., with the tug Endeavour, towing the Roy. Late that night the Roy went aground on the reef started for American waters, arriving here yesterday after a stop at Detroit for coal and supplies. Captain Whitten and the American crew of the Roy set to work shifting the tug, and working the tug off the reef started for American waters, arriving here yesterday after a stop at Detroit for coal and supplies. WIND SAVES TOWN.
Ottawa, July 2.—Fire today completely destroyed the Warner industrial building which adjoins the station here, severely damaged the station and several surrounding structures, and for a time threatened the entire business section of Ottawa. The absence of wind, all that saved the town. The loss exceeds \$50,000.

DASH FOR THE POLE.
New York, July 2.—Commander Robert Peary, of the steamer Roosevelt, in which the Arctic explorer will make his next trip in search of the North Pole, will leave New York on Monday. Arrangements for the expedition have been practically completed, and Commander Peary said yesterday that sufficient funds had been raised to make the trip a certainty. Peary will not sail with his ship from New York, but will join her at Sydney, C. B.

CHOLERA IN PHILIPPINES.
Manila, July 2.—The cholera has again spread from Pangasinan province to the province of Nueva Ecija, through recent festivities. Only one town is affected, and the authorities are endeavoring to confine the disease there. Pangasinan and Capiz are the only provinces in which the epidemic is serious, and the total number of cases show a slight decrease. Manila is entirely free from the disease.

CLEMENCY FOR ORCHARD.

**VICTORIA CRICKETERS
DEFEAT VANCOUVER**

Local Men Play Consistent Batting Game at Terminal City.

Vancouver, July 2.—The Victoria Cricket Club defeated the Vancouver eleven at Brockton Point in an all-day match yesterday with a score of 125 runs to 57. The visitors' consistent batting won them the game. No less than six men of the Vics reached double figures.

Victoria batted first. Capt. L. York senting in Martin and Gillespie to face the Vancouver bowlers. Both batsmen were cautious, but Gillespie was caught by Sterling off Thomas when he had 9 runs to his credit. Martin made a half century, scoring a total of 31 runs, but W. York and J. C. Barnard were disposed of quickly. At the luncheon interval the score was 52 for 5 wickets, and when play was resumed the score was taken past the century mark. L. York was caught out in splendid fashion by Thomas, the last being taken just above the ground after he had knocked up 28 runs.

B. Tye played well for 11, and J. F. Meredith hit up 25 before being bowled by Rigby.

When Vancouver went to bat, Silcock, the Victoria bowler, proved very troublesome and disposed of S. P. Jagger and C. E. Lambie for 10 and 11 respectively. Armistead played beautiful cricket for 40, but none of the other batsmen except W. H. Crowfield succeeded in reaching double figures, and he was bowled after making 12.

**HER REPUTATION
FOR HOSPITALITY**

British Public Appealed to for Funds to Entertain Olympic Guests.

London, July 2.—Lord Desborough, in behalf of the British Olympic Council, recently has been appealing to the British public to subscribe £50,000 for the purpose of entertaining the judges, officials and 2,000 foreign athletes who are coming here for the Olympic games. Yesterday, however, Lord Desborough stated that the response had been so small that the council had been compelled to abandon the proposal as the British government provided no fund for such purposes. In contrast, he pointed out the Greek government spent \$12,500 at Athens on a similar occasion in 1896.

Lord Desborough said that it is incredible that a great wealthy nation should refuse to return the hospitality which British athletes have received in every quarter of the globe.

The Daily Mail this morning editorially takes up the failure of the British people to subscribe a sufficient fund for the entertainment of the visiting athletes at the Olympic games. It appeals to the public to rise to this great emergency and to save the national reputation for hospitality and good fellowship. The Mail heads the list with a donation of \$500.

**RUSSIA TO FORTIFY
EASTERN POSSESSIONS**

St. Petersburg, July 2.—The Douma has adopted the bill authorizing the expenditure of \$40,000,000 for the completion of army supplies and material. The appropriation will be devoted entirely to the military needs of Transbaikalia, the construction of fortifications at Vladivostok, and capacious barracks at several centres with the best available artillery equipment.

The Douma's tentative approval of its programme for the expenditure of a further \$100,000,000 in 1909-11 for the same purpose, together with the estimated expenses of building the Amur railroad.

The Douma already has given its consent to the total expenditure of more than \$200,000,000 to assure the defense of Russia's far eastern possessions.

"TRUE" STORY OF REGICIDE PLOT

**PROPOSAL TO WIPE OUT
ENTIRE ROYAL FAMILY**
Jose de Apolimo Makes Sensational Disclosures in Portuguese House.

Lisbon, July 2.—Jose de Apolimo, chief of the Progressive dissidents, smiling under the imputation that he was implicated in the assassination of Lisbon last February of King Carlos and Crown Prince Luis, created a sensation in the House of Lords today by revealing what he asserted to be the true story of the regicide plot.

He asserted the assassination had been decided upon at a meeting of the Progressive and Republican party a few days before they were carried out. He charged that it was proposed to wipe out the entire royal family with the exception of Maria Pia, the mother of King Carlos, but that the monarchists insisted that such a general slaughter would be useless.

Finally Manuel Silva Buisa and Alfredo Costa were given \$20,000 and \$10,000 respectively to kill King Carlos and Crown Prince Luis. Arrangements were made by other men to cover the flight of the assassins, but when Buisa and Costa fired their friends lost their heads and opened their eyes. These shots resulted in the death of Prince Luis.

**CORRUPTION HOLDS
U. S. WOMEN BACK**

Suffragette Movement Less Advanced in America Than in England.

London, July 2.—Mrs. Humphrey Ward, the novelist, in a letter to the Times, recently described the position of the women's suffrage movement in the United States, where, she said, despite the keen agitation, women's participation was less advanced than in England.

Mrs. Millicent Garrett Fawcett referred in a letter to the Times this morning, admitting this fact, but contending that this was not due to the anti-suffragette movement, but to the corruption of American municipal and state politics, and the difficulties with the negro and alien problems, which impel American men to do their utmost to keep their women out of politics.

NEW YORK MAYORALTY.
McClellan's Title is Clearly Established.

New York, July 2.—Mayor Geo. H. McClellan's title to the office of Mayor of New York was made clear by a decision of Justice Lambert in the Supreme court yesterday when he ordered a writ to be issued that Mr. McClellan was duly elected mayor in 1906.

W. R. Hearst has been contesting the Mayor's right to the office practically every day since the election, and as a result of his charges of fraud in the original count of the ballots, the legislature passed a law enabling a recount.

Attorney-General W. S. Jackson—then instituted an order for a recount on behalf of the people, in which both Mr. Hearst and Mayor McClellan were named as defendants.

The recount left Mayor McClellan with a plurality of 295.

VOTE FOR BRYAN.
Montana Democrats to Remain True as Long as His Name is Before Convention.

PIONEER OF DISTRICT

DIED AT SIDNEY

Samuel Roberts Passed Away
Yesterday at His Home.

The death occurred yesterday at Sidney of one of the pioneers of this part of the province in the person of Samuel Roberts. The deceased was one of the argonauts who sought his fortune in the Cariboo gold fields.

About 40 years ago he settled upon a farm at Sidney, and has lived there ever since. During his long residence in the Saanich peninsula he made a vast host of friends. He was a native of Wales, where he was born 75 years ago. For some time he has been in a precarious state of health, his death being not altogether unexpected.

His wife survives him and a large family. Three daughters are married, Mrs. McPherson of Ashcroft, Mrs. McKinnon of Sidney, and Mrs. C. Blake, a resident of the upper country. The other members of the family, consisting of five sons and three daughters, live at home.

The funeral will take place on Sunday afternoon at 2 o'clock from the family residence, Rosedale Farm. Rev. Mr. Finton will officiate.

THE MINISTERS AND OFFICIALS RETURN

Question of Prince Rupert Townsite Plans Under Consideration.

The provincial government is going into the question of the Prince Rupert townsite plans this afternoon. Hon. F. Carter, Minister of Lands and Works, will be in the chair. The question of the townsite plans is a matter of great importance and a general hope is expressed by all concerned in the matter that it may be possible to have the whole question disposed of at once so as to allow of active work being prosecuted.

ANNUAL PICNIC

Reformed Episcopal Church Sunday School Held Outing.

The annual picnic of the Reformed Episcopal church Sunday school took place on Saturday last. Goldstream was the place selected, and the children were conveyed there by the E. & N. railway, and a most enjoyable day was spent. In the afternoon sports were indulged in and of most much interest and amusement. The winners were: Flat race, boys ten and under—1st, Fred. Shandley; 2nd, Edgar Barnes. Flat race, girls ten and under—1st, Audrey Carter; 2nd, Annie Barnes. Flat race, boys twelve and under—1st, Howard Carter; 2nd, Frank Shandley. Flat race, girls twelve and under—1st, Audrey Carter; 2nd, Fannie Day. Flat race, boys fifteen and under—1st, Vere Carter; 2nd, Jack Belford; 3rd, Mary Frampton; 2nd, Dorothy Frampton. Gretta Green race, over 12—1st, Fred. Shandley and Bonnie Stewart; 2nd, Robt. Hancock and Audrey Carter. Gretta Green race, over 12—1st, Jack Belford and Jack Carter; 2nd, Herb. Laundry and Violet Harmon. Three-legged race, over 12—Howard Carter and Herb. Laundry. Three-legged race, over 12—Jack Belford and Vere Carter. The prizes were distributed by Mrs. B. S. Day, after which the youngsters returned by train to the city, well pleased with the day's outing.

C. W. D. Clifford has returned from the North. He reports that there is quite marked activity there, and complains that the southern part of the province is dull.

TENDERS ASKED FOR ANOTHER SECTION

Eleven Miles of E. & N. Extension to Be Constructed.

The C. P. R. are calling for tenders for the contract of grading another 11 miles of the E. & N. extension. The section is from Mile 30 near Nanaimo Bay to French Creek.

Tenders are to be received until noon Friday, July 31st. The seal for tenders requires prices for both grading and bridging along the eleven miles of road.

At the band concert to be given by the Victoria city band at the Gorge next Sunday afternoon, Mr. Thos. Price will sing a sacred solo entitled "Beyond the Gates of Paradise." He will be accompanied by the band.

The funeral of the late Jonas Coxhead took place on Tuesday afternoon at 2:30 o'clock from 1444 North Pembroke street to Ross Bay cemetery, where interment took place. A. J. Pines officiated. The following acted as pallbearers: P. H. Johnson, A. L. Johnson, J. Collins, H. Bolton, M. Smith and W. J. Sargeant.

Lower University school closed on Tuesday, when the examination results were announced by Rev. W. W. Bolton, who is in charge of this branch of the school work. The prize for fourth class was won by Willie Fleet, although D. Jones was a close second, and by R. Palmer for form II, giving him the title of head boy of the lower school. School will re-open September 1st.

The death occurred last evening at the family residence, 1529 Belcher avenue, of Mrs. Henry Stokes, after a lingering illness of several months. The deceased was a native of Litchfield, England, and was 33 years of age. Besides her sorrowing husband a little daughter is left to mourn her loss. Her father, Mr. Deakin, lives at Port Renfrew. Two brothers also survive her, one in this city and another in Seattle. The funeral will take place to-morrow afternoon at 2:30 o'clock from the late residence and at 3 p.m. at the Reformed Episcopal church, Rev. T. W. Gladstone will officiate.

TEXAN TRAIN WRECK

Many Passengers Missing When Coaches Go Over Embankment.

El Paso, July 2.—The Texas and Pacific passenger train which left here at 2:30 yesterday afternoon went through a washout at Borricha, 130 miles east of here early this morning. The engine and two coaches went over an embankment, and the engineer, fireman and a number of passengers are missing.

Mrs. G. R. Naden and children were passengers by today's Princess for Vancouver, on route to their new home at Prince Rupert.

ELOQUENT MISSIONARY PASSES THROUGH CITY

H. F. Laflamme Addresses Baptist Congregation on His Way East.

H. F. Laflamme, who, under the auspices of the Ontario foreign mission board, has for eighteen years done missionary work among the Telegones on the eastern coast of India, between Calcutta and Madras, passed through this city on his way east on Tuesday, finding time to give an address on missionary work on Tuesday to the congregation of the Central Baptist church.

Mr. Laflamme, while not severing his connection with, has been loaned, so to speak, by the foreign mission board to the students' volunteer missionary movement, for which society he has been doing yeoman service during the past few months.

While in India Mr. Laflamme did not confine himself to purely missionary work, but also busied himself with editing native papers, teaching native schools, and with translating work of all kinds. Before leaving the country he was reputed to be one of the most eloquent of speakers in the Bengali tongue.

It will be remembered that Mr. Laflamme was the man who took the initial step to bring about a union of the Baptist denomination from the Atlantic to the Pacific coast. During his brief stay in Victoria he interviewed several gentlemen interested in this work of union.

Mr. Laflamme is going East, where he will continue, for some time at least, to work for the interests of the students' missionary movement.

He was in attendance at the last summer school at Seaside, Oregon.

ABE RUEF'S BAIL

Court of Appeal Decided in Favor of Notorious Frisco Grifter.

San Francisco, July 2.—The district court of appeals referred to Superior Judge M. Seawell the matter of passing upon securities and bonds offered by Abe Ruef in his effort to secure his release on bail of \$750,000. By the decision in the habeas corpus proceedings the court took the matter of bail out of the hands of Judge Seawell, before whom it was pending. The court questions the rulings of Judge Dunne in refusing to accept the securities who could not qualify with San Francisco real estate, and also the decision that relatives of Ruef, particularly his father and sister, could not qualify.

It is ordered that the matter be referred to Judge Seawell to hear testimony as to the qualifications of sureties, to approve the bonds if sufficient securities are produced and upon sufficient securities being produced and the bonds approved in the amounts fixed, that Ruef be discharged from custody. The decision holds it is the duty of a judge to follow the law in the matter of securities regardless of his personal opinions; that relatives may act as sureties and that ownership of real estate is not the sole security being acceptable. Justice Cooper wrote the opinion and Judges Hall and Kerrigan concurred.

UNRULY CONDUCT OF SUFFRAGETTES

RIOTS IN PRECINCTS
OF WESTMINSTER

No. 10 Downing Street Bom-
barded With Stones—29
Women Arrested.

London, July 1.—Contrasted with the recent orderly and impressive suffrage demonstrations, yesterday's demonstration was a comparative failure, and calculated to injure rather than advance the cause. It was intended to secure the passage of the bill, but the riotous and unbecoming conduct of the women, and the fact that the House of Commons, in fact, remained closed, as they now explain, for another projected invasion of parliament to-morrow.

The police were in strong force, and for two or three hours the neighborhood of Westminster was the scene of riotous and unbecoming conduct, through the efforts of the suffragettes to break through the cordon and reach the lobby of the House of Commons.

Numerous rushes and assaults were employed for this purpose, but none succeeded, and in the end twenty-nine of the women were arrested, including two bold spirits who drove in a cab to Downing street, threw stones and smashed the windows of the Premier's residence, and others who chartered boats on the Thames and tried to harangue the members of the House on the terrace through megaphones.

Mrs. Asquith and her daughter watched the scene from the balcony of a hotel overlooking Parliament square. Mrs. Asquith had been watching events in the street, with her daughter and a governess, but the party were swept away by a sudden rush of the mob, and were somewhat roughly addressed and handled by a policeman, who supposed they were suffragettes.

Mrs. Asquith then disclosed her identity, and the policeman escorted her to the hotel. She afterwards expressed her strong disapproval of the methods of the militant suffragettes. The Premier himself left parliament on foot and passed unscathed, although there were enormous crowds around parliament. Scenes of the greatest disorder were enacted, but it is estimated that not more than five per cent. of those gathered in parliament square were women.

Women Get Hard Labor.

London, July 2.—The two suffragettes who broke windows in the residence of Premier Asquith on Tuesday night were yesterday sentenced in the Bow street police court to two months of hard labor. They were not allowed the option of a fine.

BRITAIN REFUSES.

Will Not Give Up Political Refugees to
Shah's Government.

London, July 1.—The foreign office has refused the request of the Persian government that the political refugees at the British legation in Teheran be handed over to the local authorities, and at the same time it has protested with warmth against the action of the Shah in posting troops in the neighborhood of the legation. Sir Edward Grey, the foreign secretary, said the refugees would not be given up without definite and reliable guarantees of their proper treatment.

Official dispatches received at the foreign office mention reports of disturbances in the provinces, but they say there is no danger to foreigners.

NEW WAY TO BE WELL

HEALTHFULNESS OF ORANGES.

The one lesson which most people never seem to learn is, how to guard their health.

We have been eating oranges since time immemorial, yet how many of us know that orange juice contains a medicinal principle which has a marked effect on the stomach, bowels, kidneys and skin. Some physicians go so far as to say that they can cure the average case of indigestion, constipation, biliousness and dry skin with orange juice and proper diet.

This can be easily proved to the satisfaction of any sufferer. Take the juice of one or two oranges every morning before breakfast, take one or two "Fruit-a-lives" every night at bedtime, exercise a reasonable care in diet, and the proof will be found in health. The cure will be greatly assisted and hastened by taking "Fruit-a-lives" in conjunction with the orange juice. "Fruit-a-lives" are fruit juices in which the medicinal principle of oranges, apples, figs and prunes are many times increased by the special way in which they are combined. Then tonics are added and the whole made into tablets. "Fruit-a-lives" may be obtained at all dealers, or will be sent postpaid on receipt of price—50c. a box—6 for \$2.50. "Fruit-a-lives" Limited, Ottawa.

DEATH IN PARIS RECALLS

MONTREAL MYSTERY

Vancouver Man Thought to
Have Been Victim of
Foul Play.

Montreal, July 1.—News of the death of Albert Edward Lewis, of Vancouver, recalled from Paris, recalls a nine days' wonder of a death. Mr. Lewis was a resident of Montreal, and was supposed to be wealthy, as he had married the daughter of Stanley Bink, who owned a large and valuable property, mostly residential. Lewis was a real estate agent, and was trying to put through a deal in the suburb of Mile End, now Ville St. Louis, to which there was violent opposition.

One night he left home to keep an appointment in connection with the matter. He has not been seen since in Montreal. The letter making the appointment was found on his desk and at the appointed place, a dark corner of the straggling suburb which did not have so good a reputation then as now. There were signs of a fierce struggle. One of Mr. Lewis' gloves and his cap were found nearby. Threatening letters were found in his house, and the police went to work on the four play theory. But before long they began to look farther afield, and soon had no doubt that Lewis was alive, and well.

Months after this it was discovered that Lewis was in Vancouver. He remained there for a year or two, afterwards returning to Winnipeg and taking up his residence in Vancouver finally. He is said to have owned a good deal of property in Vancouver.

HORRIBLE DEATH.

Port Essington Fatality Was Due to
Drunk.

Special Correspondence.

Port Essington, June 28.—Word reached here today of a fatal accident which occurred in Port Essington early on Monday morning. The first fatality amongst the many railroad laborers now engaged in building the grand Pacific.

Orto Eklund, a Swede, employed on Contractor M. H. H. section near Point Mowich, with several companions rowed over to Port Essington on Sunday for a little recreation, and landed rather freely. Eklund, who had been in bed at "Black Jack" Macdonald's hotel, and on early and wandered down the sidewalk towards the bluff. While attempting to turn down a short stairway he fell and his head struck his neck being tightly wedged between two short sticks driven into the ground in a forked position, while his feet remained on the sidewalk. On account of his helpless condition he was powerless to extricate himself and was slowly choked to death. He had been made for two hours when he was discovered, and at the inquest held by Coroner Wilson a verdict of accidental death was returned. Little is known of his relatives except that he has a married sister living in Seattle. Port Essington possesses neither houses nor horses, the coffin was placed on a tarpaulin, and hauled by the provincial constable and his deputy, taken to the local burying ground, where it was buried.

JAPAN'S VICTORY

IS CAUSE OF UNREST

Lord Curzon and Viscount
Morley Tell of Troubles
in India.

London, July 1.—An oratorical joust between Lord Curzon and Viscount Morley of Blackburn, secretary of state for India, occurred in the House of Lords last night on the subject of the recent unrest in India. This was Viscount Morley's maiden speech in that house.

Lord Curzon regarded the unrest as a chronic symptom of the condition of Asia as a whole, which has been fomented by the Japanese victory over Russia. "That was the triumph of Asia over Europe," he said, "and the reverberations of that conflict have spread like a thunder clap through the whispering galleries of the east."

Viscount Morley, in defending the government's policy, argued with Lord Curzon that the trouble was largely due to the Japanese victory. The government had no reason, he continued, to doubt the American loyalty and friendship. Regarding the Indian agitation, it did not intend to adopt the remedy of "martial law and no damned nonsense," but while the enforcing of the law and the preserving of order would not be determined by bombs and outrages, it would persevere in its policy in the direction of giving all grades of Indians "some handling of their own affairs."

ON LADYSMITH WATERFRONT.

(Special to the Times).
Ladysmith, June 30.—These are busy times at the local wharves. The mines are working every day at full capacity, and still there are vessels anchored in the bay waiting their turn for a berth. Last week the following vessels coaled: Pilot, B. C. P., Stetson and scows, Eagle, San Lion, Salik, Tepture, Yee, Samson, Belfast, Beatrice, Princess May, Celtic, Canadian, Shamrock, Jesse Mack, Edith, Amur, Etta White, Burrard and Carr.

The Greenwich pulled out with a full cargo of sack coal for Nome. Her place at the T wharf was taken by the Rygis, a new boat, which will carry 5,000 tons of sack coal.

News was received Saturday that the Ohio was twenty-three days out of Nome, and still she was not located, which means that the ordinary time for the trip had been doubled.

Lying at the wharves, waiting for cargoes are the barges Two Brothers and Robert Kerr, and at anchor Bache bay waiting a berth is the steamship Titania.

CHINESE EXCLUSION LAW.

Because of recent discussions in the House of Commons and elsewhere in regard to changes in the law affecting the entrance of Chinese into British Columbia, it may be of interest to explain the effect of the amendments. The alterations are not designed in the slightest measure to affect the number nor change the system in vogue as to the transit of Chinese. Under the act as it has existed up to the present, there was no clear authority permitting the Chief Controller of Chinese to manifest the immigrants from Vancouver to any other point, occasionally requests were received and authority was taken upon the ground that under the act a Chinaman is not legally landed until he has passed before a customs officer and either paid his capitation tax or been declared exempt. The amendment was drawn merely to give authority for a practice which has been in force for years, and for which the act did not specifically provide.

Occasionally a customs collector at some interior point writes to the Chief Controller at Ottawa informing him that he has received a deposit of \$500 to pay the capitation tax on a certain Chinaman about to land, or perhaps already landed, at Vancouver; usually a young boy, and he asks the Chief Controller to instruct Vancouver to forward the Chinaman on in bond, which has been done.

When the C. P. R. or other railways take charge of Chinese in transit either through Canada or from Vancouver to an interior point in Canada, they are required to give certain receipts therefor to the collector at Vancouver. The railway company is then responsible for the Chinaman or Chinamen and is obliged to keep them under guard in consequence. Upon each Chinaman being passed out of Vancouver at any point, the collector of customs there attests to the fact. The same thing happens if the tax is paid and the Chinaman is released. The railway company then returns the cancelled manifests to Vancouver, and it is relieved from further responsibility. If a Chinaman escapes from the custody of the railway, it can produce no evidence that he has been legally passed out of Canada or been legally released, and it has to pay the \$500 tax.

The department holds a bond from the C. P. R. of \$100,000, so the government is absolutely safeguarded. Before the capitation tax was placed at \$500 the C. P. R. had to deposit cash with the collector of customs at Vancouver for all Chinese in transit, either to interior points or through Canada, and this was refunded upon the production of the cancelled manifests, but it would become a considerable burden under present conditions to ask the C. P. R. to sometimes deposit cash perhaps to the extent of fifty or sixty thousand dollars.

If a tax is paid in Vancouver, British Columbia gets 50 per cent. at the end of the fiscal year. Chinese manifested on interior points pay the tax at such interior points, such provinces getting 50 per cent. of the said tax. British Columbia beyond a doubt receives very much more than its share of the tax at the point of destination in Canada, as of course a great many Chinese arriving at Vancouver do not remain in British Columbia.

The number of Chinese arriving at Vancouver and manifested on interior points is a mere bagatelle; there have not been six cases in the past year.

The following statement shows the revenue derived from and the proportion paid to the respective provinces for the last fiscal year:

Province	Revenue Paid
British Columbia	\$37,000
Quebec	15,000
Nova Scotia	1,500
New Brunswick	2,000
Ontario	500
Saskatchewan	500

JAUNTS AT PUBLIC EXPENSE.

Some people cannot understand why Mr. Borden, the leader of the federal opposition, flung Sir Charles Hibbert Tupper aside and adopted Premier McBride as his first lieutenant in British Columbia. There is no question whatever that Sir Hibbert is the ablest man either in the ranks or in the leadership of the Conservative party to-day in any part of Canada. There is no comparison upon any point, whether of character, of standing, or of talent, between Sir Hibbert and Premier McBride. But you see Mr. McBride, thanks to the valuable assistance of the Socialists in the legislature, is Premier, and in position to "do something" for the advancement of the Tory cause in this province. He has the provincial finances at his command and can go up and down the country at the public expense expounding the alleged doctrines of Conservatism. Mr. McBride's newspaper supporters tell the public with

wearisome iteration that his jaunts to and fro within the province are undertaken for the purpose of finding out personally the needs of the different constituencies. It is a generally accepted fact that the various constituencies elect representatives for that very purpose and that the treasury is yearly drawn upon for a very considerable sum in order to recoup them for their loss of time and services. We are also blandly informed that these political pilgrimages of our worthy Premier are absolutely void of party significance. Yet it will be observed that when the wily premier has collected a considerable assemblage of people, upon the pretence of non-partisanship, that he usually delivers an intensely partisan speech or two. That is what Mr. McBride calls "playing the game." He has ambitions to get up higher. The premiership of British Columbia is an honorable post, but a portfolio in a government of Canada would suit him better. That is the end our Premier has in view in these constant pilgrimages. He is carrying out the programme in pursuance of an agreement with Leader Borden. He is using the funds of the province to promote his private ambitions. There obviously can be but one representative of British Columbia in any federal cabinet. Premier McBride has been selected and Sir Hibbert Tupper has been left. Yet it will be observed that Mr. McBride prefers the bird in his hand to the one in Mr. Borden's dense grasp. He will only surrender his present post in case of the success of Mr. Borden and his forces in the next Dominion general election. That is a possibility so remote that there is no question about Premier McBride serving the full term of the existing British Columbia legislature. Both he and our other dear friend Mr. Rowser, who is posted for succession to the premiership, will remain in their present highly honorable and profitable positions until they are deposed by the voters of British Columbia. This notwithstanding the indefensible usage, which the revenues of the people of the province are being devoted.

There was a tremendous crush at the E. & N. Railway station yesterday. If the company has not enough cars at its disposal to accommodate the travel, line public at least it ought to take the precaution of limiting the number of tickets sold to the capacity of its rolling stock. For hundreds of people the anticipation of the day's outing were marred by the crowded condition of the railway carriages. We believe in some parts of the world penalties are inflicted upon transportation companies for every passenger to whom accommodation is sold which cannot be provided. The sale of a ticket implies a contract between the company and the passenger. If the passenger violates his part of the contract he is liable to certain prescribed penalties. If there is a corresponding obligation upon the part of the company there ought to be some authority to see that it is enforced.

Mr. Fisher, one of the C. P. R. believes a congestion of freight cars is experienced yet this year. In addition to the crop the sudden placing of orders for goods as a result of a good crop would be impossible to handle every thing as fast as shippers might desire.

The New York Produce Exchange has been alert in realizing the results of Montreal's successful competition for Atlantic shipping business. The rapid shifting of traffic is shown by the record of \$300,000 bushels of grain from Montreal since the opening of St. Lawrence navigation this season as com-

pared with 2,000,000 bushels from New York during the same period. This is a splendid and gratifying tribute to the policy of the Dominion government in perfecting the shipping facilities in Montreal harbor.

A news agency, known to enjoy highly confidential relations with the German Chancellor, two weeks ago issued an irritatingly violent personal attack on King Edward. The outburst was so remarkable that the editors of the leading Berlin papers hurriedly got together and decided that it must be suppressed at all costs. In addition to some references to the King's private life, the article defiantly warned Great Britain that it would do well to check its Sovereign's vaunting ambitions to encompass the political analysis of Germany.

Prince Rupert, says the Empire, has stores, hotels, restaurants, churches, a bank, a school, a custom house, a post office, electric light, water, sewers, doctors, a newspaper; but no town lots, no saloons, no lawyers and no disturbances. Happy Prince Rupert. But the saloons and the lawyers will soon arrive and put an end to the young city's felicity.

It is quite evident that proud upon undertaking to place Nature in harness, takes many risks. Mark the number of people in the East who are being killed by inadvertently taking hold of electric light and other wires. In these days the individual who avoids dangerous wires as he would the plague is wise in his generation.

St. John Sun: If there were no other reason for the retention of the Liberal party in power, there stand two unanswerable arguments against a change of government in the person of Sir Wilfrid Laurier on the one hand and of Foster and Fowler on the other.

VERBAL BETTING NOT ILLEGAL.

Anti-Gambling Law in New York State May Prove Abortive.

New York, July 2.—Melville Tollins, who was arrested at the Sheephead Bay race track and charged with violating the new anti-gambling law, was discharged from custody today by Justice MacDonell. The justice said that Collins had committed no crime in making a verbal bet. Collins case was selected by the Jockey Club for a test of the new law.

Why is a Yacht Called "She"

Because

She has a waist line.
She carries a sparker.
She has a bow (beau).
She is seen best in a breeze.
She makes use of a puff.
She often shows her heels.

WHY IS LEMP'S BEER CALLED FOR MORE OFTEN THAN OTHER BOTTLED BEERS?

Because

It is not charged with carbonic acid gas as some beers are.
It has a sparkle, flavor and vim all its own.
It is the highest product of the brewer's art.

THE WASHINGTON ANNEX

C. A. Harrison has Taken Up-to-date Hotel in Seattle.

C. A. Harrison, formerly proprietor of the Drieh, has again entered the hotel business. He has taken over the Washington Annex in Seattle, and is prepared to meet all his old friends from Victoria.

The Annex is a new hotel in every respect centrally located and is conducted on the American and European plan. It is in every respect a strictly up-to-date house.

Mr. Harrison has a lease on the building for nine years and eleven months from the owners, Messrs. Smith and Carey. Miss Henderson, the stewardess, resigned her position, but the rest of the hotel staff, headed by Col. Harbaugh, is still intact. The sale of the Hotel Washington Annex was conducted by G. A. Upper of Seattle, formerly of Victoria.

Mr. Harrison made many friends in Victoria, who will be glad to know that he is in business again. He will cater to the tourist and commercial travel in his new house.

SUNDAY SCHOOLS HAD BIG DAY

CHILDREN AND FRIENDS ENJOYED THEMSELVES

Large Crowds Attended the Many Picnics Out of Town.

Perfect weather prevailed yesterday for holiday making, and large crowds took advantage of the excursion to get out into the country. The Sunday school picnic parties being especially well patronized.

Goodstream was the mecca for the First and St. Andrew's Presbyterian churches, and the four special trains took out about 500 people. Of course it was especially young people's day, although older folks enjoyed themselves in their own way quite as well. Sports and games were held on the large lawn at Goodstream, and there was an exciting baseball game between teams representing the two churches.

Rev. Dr. Campbell, in the absence of Rev. Leslie Gray, took charge of the service.

Good Time at Esquimalt.
Esquimalt harbor was the picnic ground yesterday for the congregational church, and a big programme of races was run off.

The following are the results of the sports:

Races for primary class boys: 1. Frank Gray, 2. Sidney Hole, 3. Edith Babbage.

Miss Roberts' class boys: 1. Roy Emery, 2. Percy McLaren, 3. Arthur Hole, consolation, Victor Emery.

Miss Roberts' class girls: 1. Elsie Hole, 2. Olive White.

Miss Holmquist's class boys: 1. Clarence Harris, 2. Philip Hole, 3. Leslie Willey.

Miss Thompson's class young ladies: 1. Edith Willey, 2. Edna Gray.

Miss Gray's class boys: 1. Mr. Housley, 2. Mr. Smith, consolation, Mr. Lancelley.

All comers' race: 1. Charlie Coates, 2. Miss Irene Carter, 3. Miss Winnie Snowcraft.

Ball driving contest for ladies: 1. Mrs. G. H. Graham, consolation, Miss Howell.

Button sewing contest for men: 1. Mr. Housley, consolation, Mr. Lancelley.

Married ladies' race: 1. M. G. B. Graham, 2. Mrs. Bowman.

Married men's race: 1. Mr. D. Sprague, 2. Mr. M. Reid.

Boys under ten, obstacle race: 1. Roy Emery, 2. Harold Gray.

At Macaulay Point.

The Sunday schools of Calvary, Emmanuel and Central Baptist churches spent the holiday most enjoyably on Macaulay's Plains. This is the programme with winners that kept them all busy after luncheon.

Primary boys of Central: 1. Stuart Galbraith, 2. Willie Burnett.

Primary girls of Central: 1. Emma Knobs, 2. Maggie Knobs, 3. Bernice Greenwood.

Primary boys of Emmanuel: 1. Percy Sherwood, 2. Donald McLeod.

Primary girls of Emmanuel: 1. Violet Campbell, 2. May McLeod.

Primary boys of Calvary: 1. James Mercer, 2. Kenneth Foote, 3. David Anderson.

Primary girls of Calvary: 1. Agnes Anderson, 2. Bessie Johns, 3. Alberta Johns.

Boys 6 to 8 years: 1. Roy Allen, 2. Robt. Dunn.

Girls 6 to 8 years: 1. Maggie Knobs, 2. Kate Bradshaw.

Boys 8 to 10 years: 1. Tom Anderson, 2. Geo. Tibbels.

Girls 8 to 10 years: 1. Maggie Dunn, 2. Kate Bradshaw.

Boys 10 to 12 years: 1. John Cummings, 2. Roy Campbell.

Girls 10 to 12 years: 1. Violet Davies, 2. Greta Greenwood.

Boys 12 to 15 years: 1. J. Cummings, 2. Alex. Painter.

Campbell.

Young ladies' race: 1. Miss A. Anderson, 2. Miss W. Beckwith.

Young ladies' egg and spoon race: 1. Miss W. Beckwith, 2. Miss E. Morrow.

Men's race, 50 years and over: 1. A. J. Clyde, 2. W. Marchant.

Ladies' race, 50 years and over: 1. Mrs. Sheritt, 2. Mrs. Campbell.

Married ladies' race: 1. Mrs. Anderson, 2. Mrs. Brook.

Wheelbarrow race: 1. McIntyre and Brook.

Prizes were presented to the successful competitors immediately after supper and then most of the picnickers returned by special car, while a number remained and enjoyed a big camp fire built on the beach.

Methodists' Picnic.
The Metropolitan Methodist and Spring Ridge Sunday schools picnicked yesterday at Langford Plains, where a programme of race and sports was held. At 11 o'clock teams from the two churches lined up for a baseball match, which was won by the Metropolitans by a large number. At 4 o'clock in the afternoon a football match was pulled off, this time Spring Ridge winning by a close margin.

Rev. T. E. Heilmer, the new pastor of the church, was present, and the large number which was present enjoyed themselves to the utmost.

The endurance race for motor cyclists held in Vancouver under the auspices of the Royal Vancouver Yacht Club resulted in an easy win for the motor yacht Traveller of Seattle, Capt. Eugene Ward. The Alliance and the Pacific, both Vancouver owned boats, were second and third respectively.

MANY ARRIVALS AT NORTHERN TOWNSITE

Number Who Travel on First
Class Tickets Unable to Find
Employment.

(Special Correspondence).
Prince Rupert, June 28.—Every boat
arriving from the south now brings a
goodly number of people for this port.
The second-class passengers invariably
look to the railway construction
work for employment; but what the
first-class travellers are going to do is
a conundrum that even they them-
selves have difficulty in answering.
Many of them, however, manage to
find a berth somewhere, and those who
do not usually have the price of a re-
turn ticket, since they have been
given the place that their trip was a
little previous, by at least several
months.

The Princess Beatrix arrived from
Vancouver on Tuesday night with a
full passenger list, every berth being
taken, and she was loaded to her full
capacity. She brought up 30 first-
class and 60 second-class passengers
for Prince Rupert, besides a consider-
able amount of freight.

Amongst the arrivals were: The
Allies and C. N. Goewen, Victoria; J.
Christie, manager of the local
branch of the Canadian Bank of Commerce,
and wife, who were married in
Vancouver, on the 10th inst.; Dr. F.
J. Ewing, medical superintendent for
Foley, Welch & Stewart, and Mrs.
Ewing, who has been visiting in Vi-
ctoria, and D. McLeod, purchasing
agent for the same firm.

NEW TOWNSITE CALLED SOUTH PRINCE RUPERT

Property 7 Miles Distant From
G. T. P. Terminus to Be
Placed on Market.

(Special Correspondence).
Prince Rupert, June 28.—Another
townsite for the north coast of British
Columbia, and along the Grand Trunk
Pacific right-of-way will shortly be
placed on the market. The new town
which will be known as South Prince
Rupert, comprises an area of about 200
acres and is situated on the mainland
at Porpoise Harbor, adjoining the
famous Kane townsite of Prince Rupert
on the north, and distant from
Prince Rupert the terminus of the
Grand Trunk Pacific about seven
miles. The townsite which is located
on a benchland with a gradual slope
from the water, has a good harbor
three miles across, to which access can be
had at all stages of the tide through
Porpoise Pass from the open sea.

It is understood that a Vancouver
firm in charge of the survey work
and has now nine men on the ground
surveying and laying out the streets
and lots. E. J. Mathews, a Seattle cap-
italist, and the Larson Estate, are said
to be the owners at the back of the
new enterprise.

LADYSMITH COUNCIL AND LIQUOR LAW

More Stringent Regulations Are
to Be Enforced in That
City.

(Special Correspondence).
Ladysmith, June 28.—The most im-
portant business before the city council
to-night was a new licensing by-law,
for which Ald. Matheson was standing
as sponsor. The by-law represented the
good effort of the city authorities to
assume control of the liquor trade and
contained the following proposals:

1. All applications for a transfer of a
retail license shall be accompanied by
a fee of \$25 and all applications for a
transfer of a wholesale license shall be
accompanied by a fee of \$15, and such
sums shall be reserved by the municipal-
ity of the corporation for their own use.
2. All retail license holders shall have
the windows of their premises in respect
to which their license is granted, de-
scribed to the height of five feet from
the floor of the interior of such premises,
and the remaining or upper portions of
such windows of clear glass, so that
the interior of said premises can easily
be seen through the aforesaid upper
portions of such windows.
3. All existing licensed premises
aforesaid shall make before July 1st,
1908, the necessary alterations in con-
formity with the aforesaid regulations.
4. No person, obviously under the in-
fluence of liquor, shall be permitted to
remain in any bar-room in the city of
Ladysmith, or no female customer
shall be permitted to remain in any
bar-room, or any bar-room aforesaid, any
female supplied with drink or drinking
shall be deemed a customer.
5. All licensed premises shall be sit-
uated on the ground floor.
6. No person, obviously under the in-
fluence of liquor, shall be permitted to
remain in any bar-room of any nature,
all bar-rooms shall be closed during the
following days and hours of the night
between sunset and sunrise in each
day in each week: On Mondays from
12 o'clock Sunday midnight to 4 a. m.
On Tuesdays from 12 o'clock Sunday
Thursday and Friday, from 12 o'clock
each midnight to 4 a. m. of the next
day. On Saturdays, after 11 o'clock p.
m. On Sundays, all day.
7. Every holder of a license for the
sale of liquor shall permit upon the
licensed premises at all times when
anyone is upon the premises, of any ap-
pointed officer of the corporation, police
officer, or constable in order to enable
him to ascertain whether the regula-
tions governing licensed premises are
being obeyed, and no person shall refuse
entry to such officer or constable in so
entering.
8. Any person guilty of a breach of
any provision contained in this by-law,
where no other penalty is prescribed
by law for the special offence shall, on
conviction, forfeit and pay a penalty
not exceeding \$50.

With the exception of clauses 1 and
6, the by-law was adopted as introduced.
In regard to clause 1, Mayor Nichol-
son said he was not sure whether it
would be better to strike out the clause
and bring it in afterwards as an
amendment to the revenue by-law. Ald.
Matheson thought the clause was
"all right," but Mayor Nicholson ad-
mitted the proposal was rather drastic,
and proposed to strike out the provision
that all bar-rooms should be closed
at 12 o'clock midnight on the first five
days of the week, counting Monday as
the first day. Mayor Nicholson admitted
the proposal was rather drastic, and
proposed to strike out the provision
that all bar-rooms should be closed
at 12 o'clock midnight on the first five
days of the week, counting Monday as
the first day.

BIG PECULATIONS IN VANCOUVER STORE

McLennan, McFeely & Co.
Robbed of \$10,000—Clerk
Attempts Suicide.

Vancouver, July 1.—The wholesale
hardware firm of McLennan, McFeely
& Co. has discovered peculations
among its employees running close on
to \$10,000. A portion of the goods have
been recovered, but owing to the
length of time the thefts continued it
has been found impossible to locate
thousands of dollars' worth of prop-
erty and cash.

The guilty employees have been dis-
charged, the firm not desiring to pro-
ceed, owing to the fact that it
would be impossible to secure a re-
turn of the goods or their equivalent
in cash, and because of the promi-
nence in Vancouver and the east of the
relatives of some of the dishonest
clerks.

As a consequence of detection, one
of the guilty young men, the son of a
prominent middle-west business man,
who is known from one end of Can-
ada to the other, is reported to have
attempted suicide by cutting his
throat last Sunday night at his board-
ing house. The dishonest clerks oper-
ated in conjunction with a number of
teamsters in the employ of the Main-
land Transfer Company, and the
guilty men working for the latter com-
pany have also been dismissed.

It was through connection with the
teamsters that the clerks were able to
carry on the wholesale thefts for such
a long time without detection. But
for the fact that William McLeod,
superintendent of the Canadian detec-
tive bureau, happened to discover the
dishonesty of one of the teamsters, it
is probable the theft ring would still
be working at a handsome profit.

The articles chiefly dealt in by the
thieves were knives, saws, and even
lawn mowers and stoves.

REGRET ABSENCE OF THE VICTORIA BOYS

Ladysmith Celebration Com-
mittee Were Disappointed
at Course Taken.

Ladysmith, July 1.—It may be said
that there is disappointment and
some sorrow felt in the town over the
decision of the V. M. C. A. boys of
Victoria not to attend the Dominion
Day meet here. The whole difficulty is
the result of a misunderstanding. Cel-
ebration sports are organized and ar-
ranged by voluntary committees, and
as is inevitable, there are mistakes due
to inexperience and want of business
methods. The Victoria boys are quot-
ing the conduct and management of
club meets which is quite beside the
point. The regatta committee, as soon
as the wishes of the Victoria boys were
known, agreed to make the whole thing
strictly amateur with, of course, the
exception of the Indian canoe races.
True, neither cups nor medals were
on exhibition, but a cup had been chosen
for the 25th race, and the committee
were willing to let the rowing crews
nominate their trophy and consult the
water polo men as to whether the prize
should be cup or medals. More they
couldn't do. The withdrawal of the
clubs was due entirely to a mistake,
and while it is all the more to be re-
gretted on that account, it cannot now
be helped.

PORCHER ISLAND Locality in Vicinity of Prince Rupert Is Attracting Attention.

(Special Correspondence).
Prince Rupert, June 28.—Porcher
island, located some twenty miles dis-
tant from Prince Rupert by water, is
attracting a good deal of attention
just now for the opportunities it af-
fords people to pre-empt land. Parties
who have recently located fine farms
on the beach at Porcher island state
that this island is about thirty miles
square, and that while most of it is
mountainous, there are many fine
patches of land on the beach which are
ideal locations. About six feet of good
soil is found on Porcher island, and
then the rock bottom so prevalent in
these parts is found in many localities.

PHOENIX MINES BUSY.

Phoenix, June 30.—The Dominion
Copper Company's mines and smelter
again present a scene of general activity.
At the Rawhide mine, Superin-
tendent Charles Rindberg said there
were 65 men employed and the force
would be increased to 100 early this
month; shipping has commenced. Three
machines are operating and 30 men
are at work at the Brooklyn, where
the first ore train was loaded Satur-
day. The sunset will be shipping to-
morrow; 25 men already are employed
and the number will be trebled in the
course of a week. The mining of ore
at the Mountain Rose mine will be
done by contract, and operations will
commence at once.

CONSERVATIVE CONVENTION.

(Special Correspondence).
Ladysmith, June 28.—The Conserva-
tive party is advertising a convention
to be held in the opera house here on
the 7th of July. Probably a candi-
date will be nominated at this meet-
ing and in Nanaimo, F. Shepherd is
regarded as the most likely man.

AVOIDING FAT
IN
SUMMER

THIS is the season of when the stout woman finds it so hard to fight that lethargy which the excessive heat is bound to bring. She stays in doors and takes no exercise. She takes cold baths instead of warm. She drinks quantities of iced liquids with her meals and yields to innumerable other temporary comforts, all of which add to her already heavy figure pounds of additional flesh. How to prevent this is a timely question. To begin with, do not feast the body, and then rush to the nearest drugstore and buy some patent "fat-fat." This is a very dangerous practice, and in the majority of cases where women are overburdened with flesh, what is needed is not medicine, but a general reform of habits. It is not necessary to starve yourself, but to select certain foods, and take exercise. If the day is too warm to venture out, then take a long walk in the evening after supper—but exercise you must have.

As to food. All sweets are barred, and nothing should be eaten between meals. Eat no white bread at all unless it is toasted very brown. Gluten or Graham breads are permissible. Potatoes are barred in all forms. For breakfast, eat no cereals, such as cream, but eat fruit, excepting bananas, peaches and melons. In the place of richly cooked desserts, eat fruit without sugar, figs, dates, nuts and raisins. Never touch veal or pork, but all fish are allowed, except it be of an oily variety such as mackerel or sardines. Green vegetables and salads are allowed, but no soups.

If the abdomen is large, much benefit will be found from drinking chicken water. Three or four glasses of this drunk during the day is very refreshing and beneficial. To make this drink, take six handfuls of the freshly

ROCKING ON THE FLOOR LENGTHENS THE WAIST.

gathered, white-blossomed plant, pour over it one quart of boiling water, and let it boil slowly 15 minutes. In the bottom of a china pitcher place a stick of liquorice wood, some lemon peel, and two slices of the lemon. Pour over these the strained water. Let it get cold and drink when thirsty.

Do not beguile yourself into thinking that walking or driving is exercise that will take the place of walking. Neither will dragging one foot after the other around a block or two answer. Start out at a brisk pace, with the hands and shoulders thrown back and a long swinging stride. This is a natural, healthy, reducing exercise.

Do not fail to take a warm bath every day. A large lump of alum in the water is beneficial. When I say warm, I do not mean hot—hot baths are very debilitating. And be generous with the use of a stiff scrubbing brush. In this way you help to break up the fatty globules. Then dry your skin with a rough Turkish towel, and rub the flesh perfectly dry.

RAISING LEGS AT RIGHT ANGLES TO BODY REDUCES HIPS.

Do not sit on the piazza with sweet lemonade or iced tea at your elbow. Keep away from the soda water fountain. These are two rules that must not be broken. At home when you are thirsty, drink the chickadee water—and when you go to the soda fountain with your girl friend, drink iced water, or lemonade, or lemonade. Under no circumstances order ice cream soda. To-day we are showing illustrations of reduction exercises for the stout woman. These exercises have been described in full in these columns, and we simply publish the illustrations to make them clearer. Begin these exercises before the fat becomes too ponderous. It is much easier to keep flesh from coming than to get rid of it once you have gained it.

KEEP LEGS STIFF; MAKE FINGER TIPS TOUCH FLOOR.

Avoid tight lacing. Get a corset that fits you properly. It will cost you five or six dollars, but think of the money you are going to save. Common sense will tell you that if you pull in your waistline so that you can barely breathe, that the circulation will be impeded, your hands and face will get red, you will perspire excessively, and yet the flesh has not disappeared. It has merely been pushed up or down. You weigh just as much whether your waist measures 30 or 28 inches. Get a long corset that supports the abdomen, not a short one that pushes it down.

FIG. 12—WHITE LACE COAT WITH STITCHED BANDS OF LINEN.

DOVELITIES may come and novelities may go, but linen remains forever a dependable and popular fabric. It comes in a variety of weights, from cobweb handkerchief linen to the quality which is almost as heavy—and as warm—as cheviot. A medium weight linen makes the most serviceable and comfortable summer costume. The extremely heavy weaves do not launder so well, and they are anything but cool.

In color, all-white and ecru are the most dependable for tubbing, but this year there are many charming tints for the woman who can afford to launder a dry-cleaner instead of a laundry. One of the smartest of the new linen colors is, of course, Copenhagen blue and its near tints, both lighter and darker. Some beautiful rose-pinks are shown, bordering on carmine, and all the purplish tints like raspberry, crushed strawberries, etc., in the brown, a golden tint without a suggestion of red is the coolest of all for summer wear, but ecru is better even than the darker tint. A charming grey is offered which is neither pearl nor steel, but suggests a bit of silver.

Baby-blue and lavender are bad colors for hard wear, as both show streaks of yellow under sunlight or rubbing. A few very stunning suits (coats and skirts) are shown in black, white and finished with white cuffs and collars. Also a little of the tea-green linen is shown for tailored suits, but the popular novelties of the season are the raspberry and grey linens.

In width, these linens vary from 37 to 45 inches, and the latter cuts to best advantage, especially for circular skirts. A good quality can be secured for 50 cents a yard, and fifteen yards will make a stunning three-piece suit, or princess frock and loose coat. The preferred cut for the typically tailored linen suit is a pleated skirt with stiff collar, long sleeves and single-breasted and finished with three large buttons. The pleated skirt for the stout woman must be laid in fine pleats, very flat around the hips and stitched down firmly, with the flare below the knees.

When the linen costume is to be used for more dressy purposes a complete dress suggesting princess lines with tucker and perhaps full sleeves of sheer wash materials or lace is worn under what is known as the slip-on jacket, which may or may not have sleeves. The jacket may be of linen, heavily encrusted with lace or of lace trimmed with ribbons of attached linen. What is known as an imitation Irish lace is the very best combination with linen, and it washes wonderfully well. It can be bought in the all-over widths, in narrow borders, or in edgings and in medallions. It is a great boon to the

FIG. 12—WHITE LACE COAT WITH STITCHED BANDS OF LINEN.

woman who cannot embroider, because it takes the place of hand work. The very smartest touch on the linen costume for midsummer is, of course this hand-embroidery in large, open, simple patterns, done with mercerized floss, always white, whatever the tint of the gown. And with this embroidery are used quantities of buttons, some covered with the plain linen, others covered with crocheting.

FIG. 13—SHIRTWAIST SUIT IN GRAY LINEN.

And still others done in lace. Very large buttons finish the coats, medium sized buttons trim the skirts, and tiny buttons appear on the trimming of blouses, cuffs and collar. The tailored suits are quite frequently piped with a contrasting color, and black and white striped fabric is

FIG. 13—SHIRTWAIST SUIT IN GRAY LINEN.

used with almost every tint, pale blue, lavender, white, grey and black. Brown is piped with pure white, and ecru and on newness all the tailored coats a vest is suggested, if only with a piping around the inside of the collar.

Several good designs for linen frocks are shown to-day, and especially do these emphasize the effective use of buttons. Figure A shows a combination of raspberry linen, princess net and white sateen with matching buttons, that is most pleasing. The seven-gored skirt is laid to give a panel effect over pleats, and then a single-braid and buttons, both in white, suggest that the panels are buttoned to the pleats. They are used in the same way to suggest that the broad front section of the blouse is buttoned to the pleated side pieces. The chemise and cuffs are of white princess net and the deep-pointed opening in the blouse is outlined by a conventional pattern. The skirt should be made of the raspberry linen, for a white skirt would detract from the wearer's height. The blouse and skirt are both in white, and give a relief from the rich hue of the linen.

Figure B was drawn from one of the smartest shirtwaist suit designs in a big importing house. This was of grey linen, trimmed with blue bands of the same fabric and crocheted white buttons. The skirt was finished with an eight-gored skirt was buttoned down the front and had inverted pleats in the back. If it is to be strictly tailored, the skirt should be made of the raspberry linen, for a white skirt would detract from the wearer's height. The blouse and skirt are both in white, and give a relief from the rich hue of the linen.

Figure C you will find a most successful tub design, because the overblouse washes more easily if separate pieces of the same fabric and crocheted white buttons. The skirt was finished with an eight-gored skirt was buttoned down the front and had inverted pleats in the back. If it is to be strictly tailored, the skirt should be made of the raspberry linen, for a white skirt would detract from the wearer's height. The blouse and skirt are both in white, and give a relief from the rich hue of the linen.

And last, in Figure D you will see one of the smart lace coats of which I spoke in the early part of this article. It is made of all-over imitation Irish with blue folds of linen and fine crocheted buttons. It could also be made of all-over embroidery in a heavy open pattern. It takes 2 1/2 yards of 32-inch material, lace or embroidery. The stitched folds should be in white linen, for even the coat can be worn with any wash frock, while if colored linen is used, it can be worn with one suit only.

These matters must be thought of, because a real bargain in fabric bought at this time should be worth something next summer. In remnants suitable for shirtwaists or fancy blouses, avoid the very striking color or pattern. Styles may change before fall, and especially if you are buying silk, you will want to color it then. A delicate standard pink is a much better investment than a large figured silk in one of the season's new colorings like Copenhagen blue or raspberry. A good pattern in black and white is always a useful investment.

GOOD FORM
IN
SUMMER RAIMENT

FAVORED few women there are who have learned to properly connect modes and manners. The average woman, unfortunately, thinks that there is very little connection between good manners and the latest fashion. Consequently the woman who may be punctilious about her manners, in many respects, shows flagrantly bad form in her adaptation of the moment's fashions.

FIG. 14—OVERBLOUSE OF ECRU LINEN WITH EMBROIDERED CHEMISETTE.

She learns from her dressmaker that elbow sleeves are popular and she forgets that it is poor etiquette indeed to appear with bare arms on the street. She is told by her shoe dealer that spangled buckles are the rage this season, and promptly she forgets that it is extremely ill-bred to wear conspicuous raiment on the street.

The really well-bred woman fits the fashions to the time and the place. She does not force the time and the occasion to accept some ultra-fashionable whim.

Especially is this difference in breeding noticeable in summer, when, somehow, the general public sees a woman more intimately. A thousand little screens does Dame Fashion provide for winter, but in summer the woman is apt to fling aside discretion in dress.

The well-bred woman is as particular about her traveling apparel in summer as in winter. She does not wear a black or dark skirt, with white blouse, and she does not wear a white blouse, with black skirt. Instead, she knows that the coat suit is absolutely the only correct form of attire for traveling. If she is going some distance, and notably on ship-board, her traveling costume is of lightweight cloth, mixed goods, made without frills to catch dust, with tailored skirt and jacket and matching shirtwaist in silk or dark striped wash fabric. Soft cloth silk is an excellent material for traveling waists. Her hat is distinctly tailored, in dark colors, without lace, choux and airy flowers or plumes. Her gloves are of tan, light brown or white silk, never black. She is above all things an inconspicuous figure.

If the trip is to be a short one, she may wear a three-piece silk suit in subdued coloring, pongee or taffeta, or for the week-end trip, a well-trimmed, dark-colored or dark-green suit, always with a jacket.

The correctly gowned suburban woman, bound for a day's shopping in the city, also wears a coat suit, in cloth, silk or linen. In fact, every well-bred suburban woman considers her pongee suit to wear when going to town an essential part of her wardrobe.

The young woman invited for an afternoon of golf at the country club, if the trip is to be made by train, wears her linen-golfing suit, generally with a short-skirt showing next, then, a lightweight jacket and tailored skirt. Her golfing cap she carries with her clubs, and she does not appear on the train with the throat of her blouse turned in, her sleeves rolled up, and "athletic" in manner. She reserves all this for where it belongs, on the links.

The inexperienced young girl often makes the mistake of traveling to the suburbs or a country estate in too much finery. A well-bred country house was horrified to see stepping from the train an invited guest all in pale blue mull with a flower-crowned leghorn hat. Such raiment will be needed during a week-end visit or longer, but the mull gown and flowered hat are packed in a steamer trunk or wicker telescope and something bettered is worn on the trip, even if it is warm.

No well-bred girl appears on a city street, especially when shopping, in elbow sleeves, without gloves or with the neck of her blouse or chemise showing. Her corset cover, if such attire may be worn by the summer girl at beach or mountain resort, on piazza or front stoops in town, but never when downtown on business bent.

This rule applies to the business girl also, who will gain a much better appearance in the eyes of her employers and customers if she wears a high-necked blouse and long sleeves at work. The tailored shirtwaist suit is what every business girl should wear in summer, in summer and dress in lingerie effects after working hours. It may seem hard to stick to high collars all summer, but if the linen collar is worn in a sufficiently large size, it does not cling to the neck and is cooler than tight-fitting lace collars or ribbons.

Another ill-bred thing that many girls, particularly business girls, do is to wear very thin blouses with brightly stained ribbons in wide measure on their lingerie. Only the other day a young girl who served me in a department store wore a blouse which was one mass of lace insertion in front. Her corset cover, a very cheap affair, showed through the lace, with a huge bow of pink ribbon not less than four inches wide! The effect was neither pretty nor ladylike. A real gentleman wears white ribbon on his lingerie, and that in responsible width.

White shoes and stockings are not good form on city streets. A young girl going to a picnic or dance after business hours may sometimes indulge in them, provided she is quite sure they will remain clean and not become unsightly, but they are very bad form in business.

No well-bred girl goes to church in a low-necked summer blouse, without hat or gloves. So common has this breach of etiquette become that certain clergymen have denounced it from the pulpit.

These matters must be thought of, because a real bargain in fabric bought at this time should be worth something next summer. In remnants suitable for shirtwaists or fancy blouses, avoid the very striking color or pattern. Styles may change before fall, and especially if you are buying silk, you will want to color it then. BARGAIN DAYS FOR BUSY FINGERS

HERE are tempting days in shops for women of small means. Everything is reduced, and remnants are both alluring and plentiful. It is a wise woman who knows just what to select from this enticing display.

First as to marked-down frocks. Be sure you do not select too pronounced styles. Look at the sleeves and skirt and decide whether in case styles change next season, the material in the costume can be made over. If nothing better is possible, will there be enough in the skirt and in the design suitable for making it over into a separate blouse?

SUMMER FISH AND HOW TO COOK THEM

THIS is the season when the small boy and his father take to fishing. In some families this practice is regarded as more or less of a joke. The more thrifty mother, however, is glad to make use of the catch whenever possible and thus keep down her marketing bills. Blue fish is one of father's favorite catches. Here are two good recipes.

Baked Blue Fish: Clean as described above, and sprinkle with salt an hour before baking. For a three-pound fish allow one hour and a half in a moderately hot oven. Cover the fish with slices of tomatoes, 1 teaspoon of whole peppers, a little more salt, two slices of onion, one bay leaf, 2 slices of carrot, 2 tablespoons of butter, and water enough to cover the bottom of the pan. Bake the fish very often. Serve on a hot platter garnished with watercress or other greens, and sliced lemon.

Brook Trout: Clean the fish thoroughly, leaving on the heads and tails. After washing, wrap them in a clean dry cloth to absorb the moisture. Melt in your frying pan butter and lard, or clarified drippings in the proportion of one-third butter and two-thirds lard. When melted, the grease should be at least a quarter of an inch deep in the skillet. Season the fish with pepper and salt, roll them in corn meal and, when the fat is smoking hot, lay in the fish and fry to golden brown on both sides. Drain all grease off before serving.

Planked Blue Fish: Select a large fish, not less than two pounds, scale, wash well and wipe dry—but if head and tail are left on, wipe through the gills with a cloth. Season with salt and pepper and rub well with flour. Have a clean, oiled plank two inches thick piping hot, rub it with sweet oil or butter. In a large frying pan melt three tablespoons of clean drippings and lay the fish in the pan, split side down, fry briskly until golden brown, turn and brown the other side. Then lay it on the hot plank, the skin side down. Spread over it a tablespoonful of melted butter, place in a hot oven and bake for twenty minutes. Garnish with thin slices of lemon and parsley greens and serve on the plank, which you lay on a large platter or tray.

TIMES SPECIAL STORY

SALLY, T. C.

By W. F. Bryan.

Sally, the daughter of the late Mr. T. C. who had entered in the register of the lyceum church, and in her baby days she was called Sally. But from the day her Cupid's arch of a mouth learned to frame intelligent sentences Jack Hardy had dubbed her the "Town Crier."

The nickname was so apt that it stuck; being reduced for simplicity's sake to T. C. Even during those stern minutes in the library with her father, he often dropped the sober "Sarah" for the more universal T. C.

T. C.'s nickname was due to her genius for the dissemination of bits of gossip best forgotten. Her mind seemed naturally to empty itself of all information, and young Hardy altered an old saw into "What goes in T. C.'s ear comes out of her mouth."

As T. C. grew in understanding the habit got her more firmly in its grip. Instead of learning to appreciate the value of reticence, her wide scope of knowledge served only the better to equip her for the authoring of sundry out-of-the-most-inopportune occasions, until not only her family, but her friends came to regard her with an affection that was not unkind with terror.

T. C. being a sensitive, little soul, grieved in secret and made earnest vows that she would tattle no more. She meant to mend her ways, but at the first opportunity her store of knowledge would not sit unheeded and unutilized.

It was to Jack Hardy that she always went for sympathy and advice when these revelations and their consequences hung heavily over her head. Though Jack had given her the odious nickname he made partial atonement by never employing it.

To him she was "Peterkin" and though frequently he was ever ready with advice, sympathy or candy as the occasion seemed to demand, for he alone apparently realized that her fault was temperamental and not the result of malice or ill-will.

T. C. fairly worshipped Hardy, yet all the little intimate details of his courtship of her sister Nell leaked out along with the rest of her chatter, and where were times when Hardy's forbearance was put to a hard test. It was characteristic of the child, that even the personal experience did not abate his sympathy for T. C., not even when he proposed to Nell and was given a negative answer.

When Nell made a hysterical reference to another girl, felt that he had T. C. to thank for this, yet his office still was her haven of refuge and she stoutly denied that she had said anything about such a thing.

Hardy's questions had to be discarded. He framed it he did not wish the fact of his rejection to become common talk, and he could not press the investigation. Instead he sought absorption in work, but the spectre of a counter-lower seldom proved absorbing, and Hardy grew thin and white while he waited and hoped for a clearing up of the trouble.

He was sitting idly at his desk one afternoon when T. C. peeked her head into the doorway and finding that he was alone, entered boldly.

"What is it, Peterkin?" he asked, nothing a-kiss-on-the-child's-troubled-face. "You've been telling the minister what you told father and when he was asked to contribute to the church fund, or did you explain to the guests at the party that the salad was made with canned lobster?"

"None of those things," the "little" declared as T. C. snuggled against the broad shoulder. "The school committee visited this afternoon. Mr. Sprague asked us what love was, and I told him it was the way the principal of the M. M. Saunders. They all laughed but Miss Sprague got red in the face and I was expelled. It is the truth, she added defiantly. "He says when he thinks no one can see him, and she calls him 'George'."

"Wouldn't you mind with whiskers?" "George" like a little boy, whickered. "Wait until you grow up, admonished Hardy. "But see here, Peterkin, I know Mr. Torrance very well. Perhaps I can beg you off if you promise to keep out of his way for the future."

"You just bet I will," declared T. C. with unction. "Lovers are funny people. There's Nell just crying her eyes out because you carry some other girl's picture in your watch case. Now my pictures are so much prettier."

Hardy sprang up from his desk and saw T. C. upon her feet.

"Let her here, Peterkin," he proposed. "You take this dime and find a place where you can get ice-cream soda. Don't be too much of a hurry to drink it. Better get two. Meantime, I'll slip down to the house and sort of prepare them for the news that you are expelled."

T. C. gurgled a delightful assent and presently they emerged from the office building, and T. C. went skipping along to the candy store while Jack made for the Westervelt home.

Nell was sitting on the shade piazza as he came up the path. As she saw him she rose to her feet, but it was too late. He was upon her, and he sprang up the steps and caught her by the "Don't go in," he pleaded. "Let's sit out here. It is more pleasant."

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound.
Mrs. Frank Kinsley, Lindsay, Ontario, writes to Mrs. Pinkham: "When I wrote to you some time ago, I was a very sick woman suffering from female troubles. I had inflammation of the feminine organs and could not stand or walk any distance. At last I was confined to my bed and the doctor said I would have to go through an operation, but this I refused to do. 'A friend advised Lydia E. Pinkham's Vegetable Compound. After using three bottles of it, I feel like a new woman.' 'I most heartily recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer with female troubles.'"

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has thousands of letters to health. Address, Lynn, Mass.

**MYSTERY SHIP
OF BRITISH NAVY**
New Gigantic Cruiser to Take
the Prince of Wales to
Canada.

During the past two months a strange monstrous vessel with three funnels, oddly placed, and two gigantic tripod masts has been coming and going at Spithead, England.

She is the famous "mystery" ship indomitable, the gigantic armored cruiser—cruciform in design, and the most important details of her have been kept absolutely secret, and she will have the honor of carrying the Prince of Wales to Canada for the approaching Quebec festivities.

She is one of three sister ships, the other two being the Invincible and the Indefatigable, which were voted in 1905, but not laid down till 1906, and which are to all cruisers of the past what the Dreadnought is to all earlier battleships.

She is at once the fastest, the largest, and the most heavily armed cruiser afloat; indeed, in many respects she resembles a fast battleship rather than a cruiser. In some months later than the Dreadnought, and built more slowly, she embodies many improvements upon that famous ship.

The first point to notice is the immense power of her artillery. She carries eight huge 12-inch guns, each 45 feet long, and each capable of firing an 800-pound shell twice in the minute. These guns are mounted in pairs in four turrets, and the turrets are so arranged that all the eight big guns can fire on either broadside, and six of them ahead or astern. As in the Dreadnought, there is some risk of the turrets injuring one another.

To meet this danger special alarm trumpets are fitted into the turret, which sound when there is any obstruction in the line of fire. The word "danger" appears and the trumpet emits a note which no one can mistake, even in the tremendous din of battle.

The guns are directed from fire-control stations, which are dispersed on each mast, the details of the system being absolutely confidential. But the general arrangement is that electrical transmitters from the fire-control positions aloft send down to the directors at the guns the range in yards, the deflection to the right or left, the orders to commence or suspend fire, and the final signal, a loud ring on a gong to fire the gun.

Where the guns are all of the same calibre or size, as they are in the Indefatigable, the work of fire-control is simplified. In battle with a big antagonist, the work of only 12 inch guns, and the work of the smaller guns, the work of knocking out the adversary.

The Blast of Gas.
Some idea of the blast and the force of these guns can be gained from the fact that during her trials two of the eight 12-inch turret guns were trained eight ahead and fired at a target.

A boat was hanging on the side, well out of the actual path of the projectiles, but in the tract of the blast of gas which accompanied them.

After the shot had been fired the boat was left a mass of wreckage, lying on the deck. The projectiles from these mammoth guns will pierce 4 feet 3 inches of solid iron placed close to the muzzle. At 5,000 yards they will penetrate a 14-inch armor plate. The blast and strongest steel armor now made.

Besides her eight big guns, the formidable carrier sixteen 4 inch guns for the purpose of meeting torpedo boat attack, and two 18 inch guns for the purpose of each turret, and the other eight on the upper works.

The engines of the Indefatigable are of the Parsons turbine type, developing 11,000 horse-power—the most powerful ever put into a British warship. They drive four screws, and on her recent official trials, which were carried out under war conditions, propelled her at a rate in excess of 25 knots.

The reports that she can do 27 or 28 knots are not correct, but she is none the less one of the fastest large ships in the world, though at sea she will probably be at least two knots slower than the newest Monitor Canuaders.

Danger of Men Going to Sleep.
The turbine engines run smoothly and almost without attention, indeed, it is said that the engine-room staff in the Indefatigable have so little to do when running at high speed that there is danger of the men going to sleep. Truly an enormous change from the reciprocating engine, which had always to be watched with the closest attention, and the machinery was working at its full power.

The boilers are fitted with appliances for burning oil, though coal is the main fuel. But it is desired to raise the speed in an emergency with the help of the oil, and the work can be done without imposing any strain on the stokers.

This capacity of making sudden spurts and maintaining the speed for many hours almost without effort is one of the most valuable results of the mixed oil and coal fuel system in modern British warships.

The Indefatigable displaces 17,250 tons, and is 530 feet long, so that she is the longest vessel in the Royal navy. She has armor of Krupp steel 1 1/2 inches thick on her side, or sufficient to defeat the attack at battle range of any gun under the 10-inch weapon. Her turrets are of 7-inch steel.

All her equipment is of the latest pattern. She has a long distance wireless signalling installation, which will exchange signals at distances up to 600 or 700 miles, and for shorter distance signalling the very powerful form of flashing light devised by Sir Percy Scott. With such messages can be rapidly sent to a range of thirty miles.

Immense Advance in Signalling.
The immense advance in signalling which the last twelve years have witnessed will be understood when it is remembered that in 1886 there was no form of signal fitted in warships which could be trusted to send messages more than ten miles with any certainty.

In external appearance the Indefatigable, with her two masts of equal size, is a most graceful-looking ship than the Dreadnought. She is in every way worthy of representing the British navy at the Quebec tercentenary, and will

REGARDING THAT HOME Or As an Investment
Don't be satisfied with a house on half a lot. The peculiar beauty of Victoria lies in its position on a beautiful bay, and its TASTES. IT IS TRUE, DIFFER. Some value the outlook from their homes beyond any other feature. Others prefer sheltered nooks and rich soil. Nearly all appreciate lovely surroundings. Whatever way our tastes incline we all want the BEST OF THE KIND. You will also notice that the best of any type is never advertised on the bargain counter—that is reserved for the slightly damaged class. Here is, I think, the best list ever offered in Victoria of moderate priced home sites:
1—IRREGULAR LOT, 45 feet fronting on Vancouver, looking down Humboldt. Price \$1,000.
2—36126 FEET fronting Southgate, a stone's throw from the Park, 8 minutes' walk from P. O. high, well drained, good soil, one of the most desirable sites in the city. Price \$1,500.
3—4 FEET ON COOK STREET, well drained, good soil, close in. Price \$800.
4—3 LOTS, double fronted, head of Hillside, should make one of the most charming homes in the city. Price \$1,500.
5—30126 close to Cook, 10 minutes from the P. O., close to good homes, the finest kind of garden, priced at \$900.
6—Last, but not least, one or two LOTS in Oak Bay, on the crest, two blocks from the car line, very good value indeed at each, \$500.
If any of the above seems to suit your taste, I shall be pleased to show you the property and talk the matter over with you. Don't postpone it, as the same thing that appeals to you is apt to suit some one else, and I CANNOT DUPLICATE THIS LIST.

COSTS MAN LIBERTY

Alfred Beck, Wanted in Colum-
bus, Ohio, Arrested in
This City.

His taking manner with the fair sex led to the arrest here of a man who was the subject of the Canadian-Australian liner Marama for Vancouver Tuesday evening.

Alfred Beck, formerly city engineer of Columbus, Ohio, who was wanted in that city on a charge of bribery in connection with certain civil contracts. The alleged bribery occurred about two years ago and at the time Beck left the country for Australia and was on his way to Mexico from there.

The amount involved was about \$30,000.

When the Marama was at Honolulu Beck, who was travelling under the name of A. R. Rogers, called a woman friend in Columbus. Through her he was able to get in touch with the police and get trace of him and Carl A. Weber, prosecuting attorney for Columbus county, came to Victoria to look for him.

MARRIED DESPITE

SHERIFF RICHARDS

Sixteen-year-old Seattle Girl
Refused License Here is
Wed in Tacoma.

Despite the fact that Sheriff Richards refused her and her young lover a license to marry, Helen Jaskulsky, a sixteen-year-old Seattle girl, is now a married woman under the name of Mrs. George Stover.

About two weeks ago Helen was out shopping in Seattle with her mother, when she went into a store, saying she would not be long in and asking her mother to wait outside for her. The girl did not come out again, however, and after waiting half an hour her mother went into the store to seek her, only to learn that she had left the place by another door. A few days later the father came to Victoria in search of his daughter and sought the aid of the local police, who were able to tell him, after investigation, that the girl and her would-be husband had been in Victoria and had applied to Sheriff Richards for a marriage license which, however, he had refused, his eagle eye telling him that the girl was below the age limit. The police were also able to tell the father that the couple had left here for Port Townsend and thither he had himself, where he lost track of them. They were eventually married in Tacoma.

Concerning the romance the Seattle Daily Times says:

"It seems that Stover, who is an electrician 21 years old, had called several times at the Jaskulsky home and dropped a hint that he would like to wed the girl, but the father, sternly refused upon the suggestion of adhering her to be wedded so young, and the ardent suitor found it pleasant to make his visits less frequent."

"When he came back to Seattle with his bride he called on Jaskulsky by telephone and asked to be pardoned. He said he had run away with the girl because he knew it would be of no avail to ask the father for his consent. He called at her parents' home and was freely forgiven."

"Stover's mother presented her son with a house and lot at South Park, where the couple is now living."

RECEPTION EXTENDED
TO REV. T. E. HOLLING

Various Organizations of Met-
ropolitan and Other Pastors
Welcomed Him.

A very cordial reception was given on Tuesday evening to Rev. T. E. Holling, the incoming pastor of the Metropolitan Methodist church, by the members of his congregation, and representatives of other religious denominations.

A. Lee presided at the meeting, which was held in the church and welcomed the new minister on behalf of the official board.

A. E. Lewis, superintendent of the Sunday school, spoke on behalf of that body, and J. Ritchie, of the Epworth League, represented the younger section of the congregation.

In addition to these addresses the various other denominations were represented at the gathering. Rev. Dr. Campbell for the First Presbyterian, Rev. D. MacLure for St. Paul's Presbyterian, Rev. T. W. Gladstone for the Reformed Episcopal and Rev. T. R. Russell for the Central Baptist; all extended a very cordial greeting to the new pastor, and expressed the hope that the kindest of relations would continue to exist among the different denominations.

Mr. Holling expressed himself, as much impressed by the cordial welcome which had been given him. He would endeavor to prove himself worthy of the confidence that had been placed in him. He thanked the reverend gentlemen of other denominations very heartily for the interest they had taken in himself.

PRIZE WINNERS IN

PENDER ISLAND SCHOOL

Children and Their Parents
Spend Happy Time on
Closing Day.

Pender Island, June 30.—Today was closing day in Pender Island school. The room had been prettily decorated for the occasion. The morning was devoted to the receipt of visitors, the hearing of classes, etc., and the giving out of the honor rolls. In the latter Mr. Grimmer kindly assisted, making each presentation in a few appropriate words.

The following were the happy winners of honors: For regularity and punctuality, Flora Hosmer; for general proficiency, Ruth Menzies; and for deportment, Laura Auchterlone. Some additional special prizes were awarded by the teacher, Miss Matheson. The three successful winners of these were: Christl Hamilton, Amy Boyce, and Grace McDonald.

Results of the promenade, examinations and the names of those who had passed were also given out.

The afternoon was spent happily at Welcome Bay, where the school picnic was held, as a pleasant ending to the term. Here a goodly number of parents and friends joined the children, and a mid-day lunch was partaken of. This is one of the beauty spots on the island and a favorite place for picnicking and bathing, which formed important parts in the afternoon's recreation. Games were played by some, while the cool, peaceful shade of the overhanging arbours, and the delightful sea breeze cooled the legs actively inclined. In the evening tea was served. Before the very pleasant gathering broke up three cheers and a dery were given. Miss Matheson, with great heartiness, Miss Matheson has won general esteem and respect, and is expected to return to her home in Vancouver.

The social life of the island has been stimulated by the return home for vacation of some of the young people, as well as by the addition of summer visitors, bringing with them a pleasant touch of the outside world.

Mr. Corbett has returned home after a brief trip to the coast. He expresses himself as more contented than ever with the West. He says never anywhere during his absence did he taste water as sweet as the pure spring water from the mountain side, and his first glimpse of the return trip of his rugged scenery seemed to cast a fresh glamour over him, and he felt that this was home indeed. While in Winnipeg he was besieged by many inquiries, anxious for direct personal information about British Columbia, with the result that at some time making it a permanent home.

HOTEL CHANGES HANDS.

Harry Hemmink Has Taken Over the
Driard.

Harry Hemmink, well known in hotel circles, has taken over the Driard hotel from L. Bates van Decar, and has obtained from the owner of the property a ten years' lease of the premises. Mr. Hemmink will make some alterations and repair the furnishings of the hotel by degrees. It is also intended to move the bar to the room now used as the writing room and to add two English billiard tables to those already in use in the billiard room. The rates for the time being will be lowered. Mr. Hemmink was until recently proprietor of the Board of Trade hotel, Vancouver.

Mr. Van Decar does not intend to leave the city. He will remain here making his headquarters at the Driard.

A baseball match, shooting match, tug-of-war, running, jumping and putting the shot—these were some of the events which contributed to make the afternoon at Ten Mile Point, some what of a surprise was meted out to the factory boys when they were pulled over the mark in the tug of war by their lighter opponents, the salesmen. The heads of the establishment were on hand and entered into the revelry with the rest of them. Every body voted it the best picnic of the year. The trip was made by Steve White's tallyho.
